OCT 12 2016  
*St. Finance*

The Honorable John Nygren, Co-Chair  
Joint Finance Committee  
Room 309 East, State Capitol  
Madison, WI 53702

Dear Senator Darling and Representative Nygren:

In accordance with Wis. Stat. § 51.06 (8), enclosed is a copy of the report (P-01054-15) on people relocated and diverted from nursing homes, intermediate care facilities for individuals with intellectual disabilities (ICFs-IID), and state centers for people with developmental disabilities in state fiscal year (SFY) 2015. This report provides information related to four programs: the ICF-MR Restructuring Initiative, the Community Integration Program (CIP) 1A, the Community Relocation Initiative, and the Nursing Home Diversion Initiative.

The Department's relocation and diversion programs have been successful, providing the opportunity in SFY15 for 631 elderly individuals and people with physical and developmental disabilities to live in community-based settings, who otherwise would have resided in ICFs-IID and nursing facilities. Since SFY 2006, 5,705 elders and people with physical and developmental disabilities have successfully relocated from institutional settings and an additional 1,270 people were diverted from admission to a nursing home through the Department's programs. The quality of life for these 6,975 individuals has been enhanced through the opportunity to live in the community, be near family and friends, and to be more fully involved in community activities.

Highlights of the relocation and diversion initiatives over the past nine years (SFY 2006-2015) include:

- 941 people with developmental disabilities, many of whom resided in institutions for decades, moved to the community and participated in community activities that were not previously available.
- 3,545 frail elders who resided in nursing facilities chose to live in the community near their family and friends.
- 1,688 people with physical disabilities chose to live in the community where they were able to access community activities, rather than live in nursing facilities.
- 1,081 frail elders and 394 people with physical disabilities, who were determined to be at imminent risk of having to move to a nursing facility, were able to remain in community-based settings via the availability of diversion funding.

Sen. Darling and Rep. Nygren  
Page 2  
October 11, 2016

- People with intellectual or developmental disabilities have been served in the community at a cost below the anticipated institutional budget for this population.
- Frail elders and people with physical disabilities are being served in the community at a cost below that of institutional care, resulting in savings under the Medical Assistance Program of \$1.09 million in SFY 2015 for the people relocated during the year.

I trust you will find the enclosed report, which can also be found at <https://www.dhs.wisconsin.gov/publications/p01054-15.pdf>, useful. Please contact my office if you have any questions.

Sincerely,

Linda Seemeyer  
Secretary

Enclosure: "SFY 2015 Report of Relocations and Diversions from Institutions"

**SFY 2015 REPORT on RELOCATIONS and DIVERSIONS from INSTITUTIONS**  
**As required by Wisconsin Stat. § 51.06 (8)**  
**Executive Summary**

---

The Department of Health Services (DHS) provides elders and people with physical and developmental disabilities residing in nursing facilities and intermediate care facilities for individuals with intellectual disabilities (ICFs-IID) the opportunity to relocate to community-based settings through three program initiatives. DHS also provides support to a limited number of people who are at imminent risk of entering a nursing home to be diverted from a nursing home admission and remain in community settings.

The DHS relocation and diversion programs have been highly successful over the years, providing the opportunity in state fiscal year (SFY) 2015 for 605 elderly people and people with physical and developmental disabilities to live in community settings, closer to family and friends and community activities. As shown in the summary table below, 424 (70.08%) relocations and diversions were frail elders; 146 (24.13%) were persons with physical disabilities; 35 (5.79%) were people with developmental disabilities.

This report provides information consistent with prior year reports, but the movement from the legacy waiver programs (Community Options Program and Community Integration Program) has significantly altered the way that people transition from institutional settings to the community. While in Family Care, a person can enter a nursing home when necessary due to health conditions and remain enrolled in Family Care. These transitions that occur within the Family Care program do not meet the definition for transitions used in this report and are not captured in this data. As Family Care continues to expand, use of these traditional relocations and diversion measures has become somewhat outdated.

<b>Community Relocations and Diversions in SFY 2015</b>				
	Persons with DD	Frail Elders	Persons with PD	Total

Total	35	424	146	605
% of Total	5.79%	70.08%	24.13%	

Since SFY 2006, 6,140 elders and people with physical and developmental disabilities have successfully relocated from institutional settings and an additional 1,440 people were diverted from admission to a nursing home through DHS programs. The quality of life for these 7,580 people has been enhanced through the opportunity to live in the community and be near family and friends and more fully engaged in community activities.

GRAND TOTAL							7580	

\*DHS does not operate a specific diversion initiative for people with developmental disabilities, but new placements into institutions are limited and new people are enrolled in home and community-based programs each year on a regular basis, essentially diverting them from institutional care.

Highlights of the relocation and diversion initiatives over the past nine years (SFY 2006-2015) include:

- 941 people with developmental disabilities, many of whom resided in institutions for decades, moved to the community and participated in community activities that were not available to them when they resided in institutions.
- 3,545 frail elders who resided in nursing facilities chose to live in the community near their family and friends. Prior to this initiative, these people would have been on a waiting list for Medicaid home and community-based services waiver care, and few would have had the opportunity to return to the community.
- 1,654 people with physical disabilities chose to live in the community where they were able to access community activities rather than live in nursing facilities.
- People with intellectual or developmental disabilities have been served in the community at a cost that is within the anticipated institutional budget for this population.
- Frail elders and people with physical disabilities are being served in the community at a cost below that of institutional care, resulting in a level of savings under the Medical Assistance Program in SFY 2015 of \$1.092 million for the people relocated during the year.
- 1081 elders and 359 people with physical disabilities, who were determined to be at imminent risk of having to move to a nursing facility, were able to remain in community-based settings because diversion funding was made available.

In 2007 DHS was awarded a federal “Money Follows the Person” (MFP) grant to support rebalancing of the long-term care system through further relocations from institutions to the community. Starting October 2007 and continuing to October 2016, the federal government pays a match rate that is higher than the standard Medicaid matching rate for the costs of certain relocated people during their first year in the community. There were 304 brand new participants in MFP in SFY15, and 530 individuals participated at any point in time over the course of the year.

## **Background**

### ***Relocation Initiatives***

DHS provides elders and people with physical and developmental disabilities residing in nursing facilities and ICFs-IID the opportunity to relocate to community-based living arrangements under the following three programs:

- ICF-IID Restructuring Initiative
- Community Integration Program 1A
- Community Relocation Initiative

Although the funding mechanisms for these programs were established under the legacy Community Integration Programs and Community Options Program waivers, persons who relocated from institutions to Family Care, Family Care Partnership, and PACE are included in the ICF-IID Restructuring Initiative, CIP 1A, and Community Relocation Initiative numbers.

### ***ICF-IID Restructuring Initiative***

The ICF-IID Restructuring Initiative serves persons with developmental disabilities receiving active treatment in a non-state-owned ICF-IIDs or a non-state-owned nursing facility. (Relocations from the three state centers for people with developmental disabilities are part of the Community Integration Program 1A described below.) The initiative was authorized in the 2003-05 biennial budget bill and became effective on January 1, 2005. Under the initiative, counties are required to prepare a community plan for every person residing in an ICF-IID and for every person seeking admission to an ICF-IID. The plan must be submitted to the court and the court must consider the plan, along with other information presented to the court. If the court determines that the community is the most integrated setting appropriate to the needs of the individual, then the court must order the person to be served in the community. If the person with a developmental disability was a resident of an ICF-IID or a nursing facility, then the initiative allows money that was previously used to fund his/her institutional care to follow the person into the community to fund community-based care. Funding can also be used under this initiative for community placements for people relocated from facilities that are closing or downsizing. Under this initiative, the entire cost of the person's care plan is funded by state and federal funding. Therefore, no county tax levy funding has been required to fund these relocations.

In SFY 2015, a total of 38 people with developmental disabilities moved into the community from non-state-owned ICFs-IID and nursing facilities as part of this initiative. In their new community settings, these people had their care needs fully met and participated in community activities that were not available to them when they resided in institutions.

As a result of the ICF-IID Restructuring Initiative and other factors, the long-term care system for people with developmental disabilities has been significantly rebalanced towards community settings. Since the start of this initiative in January 2005 through SFY 2015, a total of 930 people transitioned to community settings. In June of 2015, only 131 people were living in the five remaining ICFs-IID excluding the state centers, which is a 22% decline from the population in those facilities a year earlier. Twenty-seven ICFs-IID have closed over the course of the initiative.

**Relocations under the ICF-IID Restructuring (effective January 2005)**

***Community Integration Program (CIP) 1A***

The Community Integration Program 1A supports relocations of people with developmental disabilities from the long-term care programs in the three state centers for people with developmental disabilities to homes in the community. The CIP 1A program began in 1981. As established in the 09-11 biennial budget, effective SFY 2010, DHS adopted a universal budgeting methodology that eliminates an upper limit on daily costs (formerly \$325) and provides the full funding needed in the community for each relocated resident. In SFY 2015, there were no individuals relocated from a long-term care program in a state center to the community.

***Community Relocation Initiative***

The Community Relocation Initiative provides elders and persons with physical disabilities residing in nursing homes the opportunity to relocate to community settings. People being cared for in nursing homes have a choice to remain in their current setting, or move to the community when their care needs can be met at home, in an apartment, or in an assisted living setting. The funding being used for a person’s institutional care “follows” the person into the community to be used in the Medicaid home and community-based services waiver. The Community Relocation Initiative was authorized in the 05-07 biennial budget bill and began in August 2006. In SFY 2015, a total of 437 people relocated from nursing homes under the Community Relocation Initiative. Of the 437 total, 290 were elders and 147 were people with physical disabilities. These people chose to live in the community where they could be closer to family and friends and more fully access community activities.

People of all ages chose to relocate to community settings under the Community Relocation Initiative, as shown in the chart below. It is particularly noteworthy that 212 (49%) of those who chose to relocate were ages 75 or older, and two were ages 100 or older.

18-49	50-64	65-74	75-84	85-99	>99	Total
36	111	78	106	104	2	437

People with both relatively short-term and long-term stays chose to relocate, as shown in the chart below. The number of relocations under the 100-day mark has remained stable between SFY 2014 and SFY 2015. In SFY 2014, 119 (26%) people relocated had nursing home stays of 100 days or less, while 334 (74%) had been in the nursing home more than 100 days. Of those relocated in SFY 2015, 109 (26%) had been in the nursing home for 100 days or less, while 305 (74%) had been in the nursing home more than 100 days.

≤100 days	101-179 days	6 mo-1 year	> 1 year	Total
109	99	102	104	414

## **Diversions**

### ***Nursing Home Diversion Program***

The Nursing Home Diversion Program provides support to people who are at imminent risk of entering a nursing home to be diverted from nursing home admission and remain in community settings. The program was authorized in 2005 Wisconsin Act 355 and began in April 2006. Participants in this program are served under the Community Integration Program II (CIP II) Medicaid home and community-based services waiver. To be eligible for these diversion funds, a person is required to meet certain risk criteria as defined by DHS, as well as meeting the Medicaid functional and financial eligibility criteria for CIP II. The statute originally authorized DHS to provide an enhanced CIP II rate for up to 150 people who are diverted from imminent entry into a nursing home and to provide diversion opportunities for additional people, subject to the concurrence of the legislature. Subsequent to the original legislation, the Legislature passed and the Governor approved 2009 Wisconsin Act 277. This act, which became effective in May 2011, removed the limitation on the number of CIP II nursing home diversion slots available to be used by counties to divert high-risk elders and persons with physical disabilities from entering nursing homes.

To be eligible for diversion funding, an individual must meet all of the following criteria:

- Belong to a target group served by CIP II (elderly age 65 or older and/or have a physical disability).
- Be functionally and financially eligible for the CIP II program.
- Reside or intend to reside in a community setting that is eligible for CIP II.
- Meet high-risk criteria for imminent entry into a nursing home.
- The costs of the person's Medicaid-funded community care plan must be no greater than the Medicaid costs the person would have incurred in the nursing home.

As a part of the diversion initiative, DHS was required to develop and utilize criteria to determine who is at imminent risk of entry into a nursing home. In developing the criteria, DHS reviewed national studies, analyzed Wisconsin data, and consulted with county long-term support coordinators and staff. Factors that are considered in the criteria include:

- Meeting an intensive skilled nursing (ISN) level of care.
- Facing an imminent loss of current living arrangement.
- Having a fragile or insufficient informal caregiver arrangement.
- Having a terminal illness.
- Having multiple other factors that are associated with nursing home entry.

Under the Nursing Home Diversion program in SFY 2015, a total of 175 people were diverted from nursing home admission and remained in community-based settings, staying close to family and friends and involved in the community. Of the total, 137 were elders and 33 were people with physical disabilities. The diversion program was only available in the 15 counties that still operated the CIP II waiver at any point in SFY15. The number of counties operating CIP II, and therefore eligible for diversion slots, has decreased over time due to the expansion of Family Care. Family Care was expanded to two additional counties in June 2015. Family Care currently operates in 65 counties and is expected to operate statewide by 2018.

People of all ages benefited from the Nursing Home Diversion program, as shown in the chart below. Significantly, 61% of the people diverted from nursing homes were age 75 or older.

<b>Age of People Relocated under the Nursing Home Diversion Initiative: SFY 2015</b>						
18-49	50-64	65-74	75-84	85-99	>99	Total
10	23	30	42	63	2	175

**Nature of Living Arrangement**

The following table shows the living arrangement for people relocated in SFY 2015. Notably, 330 (76%) people moved to a home or apartment. The next most frequent setting was a community-based residential facility (CBRF), with 18% of people choosing that setting.

<b>Living Arrangement for People Relocated in SFY 2015</b>				
	Elderly	Persons with PD	Persons with DD	Total
Home or Apartment	215	83	32	330
Adult Family Home	8	4	0	12
Community-Based Residential Facility	56	18	4	78
Residential Care Apartment Complex	9	7	1	17
TOTAL	288	112	37	437

Appendix A provides information about the living arrangements for people relocated under the Community Relocation Initiative by the program under which they were served.

The living arrangements of the 175 people diverted from nursing home admission under the Nursing Home Diversion program are summarized below—showing their living arrangement both before and after entering the program.

<b>Living Arrangement for People Diverted from Nursing Homes in SFY 2015</b>		
	Prior Living Arrangement	Living Arrangement on Program
Home or Apartment	149	124
Adult Family Home	2	4
CBRF	20	41
RCAC	1	4
Hospital/Other	3	2
TOTAL	175	175

**Duration of Relocations**

Of the 400 elders and people with physical disabilities who relocated from nursing homes in SFY 2015, 41 people died and nine people returned to a nursing home during the fiscal year. The remaining people continue to live in the community and virtually all continue to receive services through Family Care, Family Care Partnership, PACE, or the CIP II Medicaid home and community-based services waiver program.

Of the 38 people who relocated from an ICF-IID, no deaths occurred during the year. No individuals were relocated from long-term programs at state centers during the year. Appendix B provides information on deaths and returns to institutions among people who have moved from ICFs-IID and state centers since SFY 2006.

**Costs Under the Medicaid Program**

Medicaid costs were calculated for both the period when the person was in an institution and the period when the person was living in the community to determine the net Medicaid cost of the relocation programs. The analysis examined the following two components: (a) the institutional or Medicaid home and community-based services waiver costs; and (b) other Medicaid (MA) costs, termed MA Card Costs, which include the Medicaid costs for personal care services, therapeutic services, and all other MA services. This provides a comprehensive presentation of the person’s Medicaid costs in each setting.

**Community Relocation Initiative**

As summarized in the table below, in SFY 2015 the average daily cost in the nursing facility for people before they relocated under the Community Relocation Initiative (CRI) was \$151.28. In contrast, the average daily cost in the community after relocation for these same people was \$112.55. Community relocations under the CRI were cost effective, producing an average daily savings of \$38.72, representing a 26% cost reduction.

Cost Information - Average Daily Costs for People Relocated in SFY 2015*								
Program	#	Facility Costs	Facility Card Costs	Facility Total	Waiver Program Costs	Community Card Costs	Community Total	Average Savings
CRI	438	137.45	13.83	151.28	97.27	15.28	112.55	38.72
CIP II - CRI	120	133.17	12.35	145.52	104.00	20.14	124.14	21.39
Family Care - CRI	291	139.55	14.02	153.57	93.22	13.75	106.98	46.60
PACE/Partnership-CRI	27	136.00	23.85	159.84	113.83	0.14	113.96	45.88

**Notes**

1. All Medicaid costs are based on paid claims as reported in interChange.
2. CIP II CRI average costs are based on claims reported in HSRS for SFY 2014.
3. Family Care and PACE/Partnership costs are based on the capitation payment paid to the Managed Care Organization on behalf of the member.

As shown in the table below, the total MA cost in SFY 2015 of serving the 438 people who relocated to the community under the Community Relocation Initiative during the period they lived in their new community settings was approximately \$3.18 million. If these people had remained in their institutional settings during this time period, then their MA cost of services would have been almost \$4.27 million. Due to the difference between institutional and community costs, the Community Relocation Initiative produced total savings of more than \$1.09 million in SFY 2015.

Estimated Total SFY 2015 Costs of Community Relocation Initiative*				
Program	#	Total MA Costs in Community	Total MA Costs in Facility for same period	Difference Between Facility and Community Costs
CIP II - CRI	120	\$1,090,694	\$1,278,539	\$187,845
Family Care - CRI	291	\$1,977,953	\$2,839,356	\$861,403
PACE/Partnership-CRI	27	\$107,464	\$150,729	\$43,265
TOTAL CRI	438	\$ 3,176,111	\$4,268,624	\$1,092,513

**ICF-IID Restructuring**

When implemented in 2005, the ICF-IID Restructuring Initiative established an amount of funding to be used for the costs of all people eligible for the initiative either in institutional or community settings. DHS was expected to manage the costs of serving those people remaining in institutions and the costs of new community relocations within the global ICF-IID Restructuring budget. As managed long-term care (Family Care) and IRIS has expanded to a large portion of the state, DHS has moved away from this budgeting mechanism for the ICF-IID Restructuring Initiative. The most recent year for which we have an estimate of this budget was \$65.5 million All Funds (AF). The SFY 2015 cost of serving the ICF-IID Restructuring population in both institutions and community settings is estimated at roughly \$40.6 million AF.

\* Numbers are rounded for internal consistency within these tables.

### ***CIP 1A Program***

As noted above, people with developmental disabilities relocated under the CIP 1A program are funded by the state MA program for their actual community costs. The institutional cost at the state center where they resided will be decreased by the amount of the individual care plan, making the program cost-neutral.

### ***Nursing Home Diversion Program***

The average daily community cost of people served under the nursing home diversion program in SFY 2015 was \$29.49, of which \$18.83 was waiver costs and \$10.66 was card costs. The projected daily MA cost of serving these people in a nursing home is \$135.01 based on the projected average facility cost for non-developmentally disabled nursing home residents in SFY 2015 and estimated card services for the Community Relocation Initiative prior to relocation.

The estimated cost of the people served under the nursing home diversion program in SFY 2015 is \$0.9 million AF. The projected cost of serving these people in nursing homes, if they needed to enter a nursing home, during the same time period was \$4.01 million AF.

### **Impact on Health and Safety**

#### ***Medicaid Home and Community-Based Services Waiver Quality Assurance***

Assuring the health and safety of frail elders and people with developmental and physical disabilities is a paramount goal of DHS whether people live in an institution or in the community. All of the people relocated under the programs described in this report are participants in one of the DHS Medicaid Home and Community-Based Waivers, which include Family Care, the self-directed IRIS waiver, and the traditional waivers (Community Integration Program and Community Options Program). All of these waivers operate under federally approved plans through the Centers for Medicare and Medicaid Services, which include extensive risk assessment and mitigation, as well as quality assurance and improvement protocols intended to ensure health and safety for participants.

All participants have highly individualized support and service plans that promote person-centered outcomes, informed choices, and community participation, in addition to addressing health and safety needs. Care management staff are required to have contact with participants at regular intervals, including face-to-face visits, to ensure that services and supports are being delivered as required and to address new needs that might arise. For persons relocating from institutions, a visit will occur shortly after the move to the community to assess the adequacy of the support and service plan and identify any issues that occurred after the move.

For all participants, ongoing assessments are methodically completed and updated. In Family Care, care planning is carried out by an interdisciplinary team, which includes a nurse. Many counties also employ nursing personnel as part of their care management teams under the traditional waivers. When unmet needs are identified, the care plan is modified. In addition to waiver services and supports, people also receive community health services such as physician and dental visits, hospital care, personal care in their home, and pharmacy.

DHS requires Family Care Managed Care Organizations (MCOs), IRIS Consultant Agencies (ICAs), and counties that administer traditional waivers to have a system to ensure waiver participants are adequately protected from physical, verbal, and sexual abuse, as well as maltreatment, neglect, financial exploitation and violation of their rights under law. DHS also requires these entities to have mechanisms for reporting incidents to DHS and effective response systems.

DHS uses state staff or contractors to monitor compliance with waiver requirements. This oversight uses a variety of sources such as case records, satisfaction surveys, and visits with program participants.

### *Regulatory Oversight*

The Division of Quality Assurance conducts regular onsite surveys of licensed 3-4 bed adult family homes and community-based residential facilities using state guidelines and standards. Counties and managed care organizations are responsible for ensuring high-quality services and environments for people living in smaller settings. Residential and day-service providers also have procedures that maintain each person's health and safety. They interact with each person on a constant basis, monitor medical conditions, provide structured social and environmental situations, and give sufficient supports to people with special needs.

DHS oversees these programs and service delivery systems by having staff throughout the state conduct several types of activities, including random unannounced visits, in-depth annual plan review, and ongoing dialogue with all stakeholders (including consumers and their families/guardians). DHS issues guidelines and establishes policies and procedures whenever necessary to address gaps that are identified or suspected.

### *Actual or suspected events*

Any actual or suspected event that threatens the health or safety of an individual is investigated and reviewed by each provider and waiver agency. Waiver agencies are required to report all such instances to state quality assurance staff or contractors, who, depending on the nature and seriousness of the report, may investigate or involve others, such as police or the judicial system.

All deaths in licensed or certified settings are reported to and scrutinized by the state to identify negative trends associated with providers, counties, or the approaches that are used by the service delivery system with the intent of preventing further instances. Concerns are then shared with appropriate entities that are required to make systemic improvements or take corrective actions to create a constant cycle of improvement. Instances of abuse or neglect are remedied swiftly and access to necessary medical services is closely monitored.

### **Involvement of Guardians or Family Members**

Counties are required to prepare a plan for home or community-based care for all people residing in ICFs-IID and nursing homes who are at a developmental disability level of care. For ICFs-IIDs other than the state centers, these plans are part of the statutorily required annual court review, known as the Watts review, to determine the most integrated setting appropriate to the person's needs. Counties involve guardians in the preparation of these plans and state law requires that the county provide a copy of the plan to the guardian prior to the Watts review.

When a person is relocated from a state center or other ICF-IID or nursing home facility, the plan for a person's care is signed by the guardian indicating his/her acceptance of the plan. Of the 38 persons relocated under the ICF-IID Restructuring Initiative, each guardian agreed with the plan that was developed.

Most elderly persons and persons with physical disabilities relocated under the Community Relocation Initiative do not have guardians. However, in cases where people do have guardians, the guardians are involved in the efforts to relocate or divert people from institutions.

For persons who are competent to make their own decisions, family members are involved to the extent preferred by the individual participant. DHS does not keep a record of family involvement in care planning for people who are competent to make their own decisions.

**Staff turnover**

Appendix C provides calendar year 2014 staff turnover rates for facilities for individuals with intellectual disabilities and nursing facilities. Staff turnover rates are provided for both full- and part-time staff for three professions: Registered nurses (RNs), licensed practical nurses (LPNs), and nursing assistants (NAs).

The staff turnover rate was calculated by the Division of Quality Assurance based upon information submitted in response to their 2014 Annual Staffing Survey. In this survey each nursing home and facility for persons with developmental disabilities (FDD) provided information about the number of full-time and part-time RNs, LPNs, and NAs hired in 2014. Each nursing home and FDD also provided the total number of full-time and part-time RNs, LPNs, and NAs employed as of December 31, 2014, and their length of service. The staff turnover rate for each category was calculated by dividing the number of new employees hired in 2014 in that category (e.g., full-time RNs) by the total number of employees in that category on December 31, 2014. For example, if a nursing home hired two full-time RNs in 2014 and had eight full-time RNs as of December 31, 2014, the full-time RN turnover rate was calculated as 25%.

The 2014 statewide turnover rates are provided in the table below:

<b>Staff Turnover Rates: Calendar Year 2014</b>		
	<b>Nursing Homes</b>	<b>ICF-IIDs</b>
Full-time RNs	33%	11%
Part-time RNs	57%	30%
Full-time LPNs	26%	2%
Part-time LPNs	51%	25%
Full-time NAs	45%	20%
Part-time NAs	72%	54%

Madison, WI 53708-8953  
Phone: (608) 266-2343

## JOINT COMMITTEE ON FINANCE

### MEMORANDUM

To: Members  
Joint Committee on Finance

From: Senator Alberta Darling  
Representative John Nygren

Date: October 12, 2016

Re: DHS Report to JFC

Attached is a report (P-01054-15) on people relocated and diverted from nursing homes, intermediate care facilities for individuals with intellectual disabilities (ICFs-IID), and state centers for people with developmental disabilities in state fiscal year 2015 from the Department of Health Services, pursuant to s. 51.06(8), Stats.

This report is being provided for your information only. No action by the Committee is required. Please feel free to contact us if you have any questions.
